

Weapon3X Critical Information

Immediate Health Effects:

Eye: Not expected to cause prolonged or significant eye irritation.

Skin: Not expected to be harmful to internal organs if absorbed through the skin. Contact with the skin is not expected to cause prolonged or significant irritation.

Ingestion: Not expected to be harmful if swallowed.

Inhalation: Not expected to be harmful if inhaled.

Personal Protective Equipment

Eye/Face Protection: No special eye protection is normally required. When splashing is possible, wearing chemical goggles is a good safety practice.

Skin Protection: No special protective clothing is normally required. Where splashing is possible, select protective clothing depending on operations conducted, physical requirements, and other substances. Suggested materials for protective gloves include: Natural rubber or Nitrile rubber.

Respiratory Protection: No respiratory protection is normally required. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

NFPA Ratings:

Health: 0 Flammability: 1 Reactivity: 0

Flammable Properties:

Flashpoint: 218° C (424.4° F)

Autoignition: NDA

Flammability (Explosive) Limits (% by volume in air): Lower: NDA Upper: NDA

Extinguishing Media: Use water fog, foam, dry chemical, or carbon dioxide (CO₂) to extinguish flames.

Chemical Properties:

Vapor Pressure: <1 mmHg

Vapor Density (air=1): NA

Boiling Point: 315° C (599°F)

Solubility (in water): Negligible

Specific Gravity: 0.87mg/l

Chemical Stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
